

E V SAI GANESH

FULLSTACK DEVELOPER

ABOUT ME

Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings

EDUCATION

NBKIRST, Kota, A.P | Civil Engineering, 2019 – 2023

CGPA: 7.4

EXPERIENCE

I have over a year of experience at NexusIQ Solutions, where I worked on three live projects. My contributions included full-stack development, API integration, and responsive UI design.

PROJECTS

[PROJECT 1 - Sree Teg Service Application](#)

Tools used : React.js, Express.js & MongoDB

About: Developed a full-stack service booking platform with role-based authentication, enabling users and technicians to manage profiles, book services, and interact in real-time.

[PROJECT 2 - Full stack Fresher](#)

Tools used : Html, Express.js & Python

About: Developed a training and placement web application for a tech institute, aimed at assisting full-stack freshers in India and abroad with skill-building and job placement opportunities.

[PROJECT 3 - To-DO mobile application](#)

Tools used : React Native, Express.js & MongoDB

About: To-Do, not like you think .It's a smart reminder for stock price updates, market ups and downs. This app features a built-in organiser with stock predictions, news updates, and task management. Users can create, edit, and track tasks.

[PROJECT 4 - User management system](#)

Tools used : React.js, Express.js & MongoDB

About: The User Management System (UMS) handles user, role, group, firm, and permission management. It integrates with an Exam Portal and Question Bank Portal, which send token to UMS for authentication. The UMS validates these token to ensure secure data access and role-based control
